That the Arlington Hotel of Calumet, which has been closed for several years will be re-opened during the Hibernians convention in August and that it will become the convention headquarters, was the announcement made yesterday following a conference between Secretary George Price of the Copper Country Commercial club, and Bartholomew Shea, the owner of the Arlington. Secretary Price tendered to Mr. Shea the request of the Hibernian committee that this well known hostelry be re-opened during the convention and he readily agreed.

SECOND DEATH
IN U.S. SERVICE

Peter J. Patrick Succumbs to Injuries in Explosion

News of the death of Peter J. Patrick, a coal passer on the cruiser Salem, as a result of injuries sustained in a boiler explosion on that ship, off Puerto, Mexico, was conveyed to the young man's father, Alex Patrick of Copper City, in a telegram received today from Victor Blue, head of the U. S. Naval Bureau in Washington. Mr. Patrick is the second copper country young man to lose his life in the service of his country in connection with the Mexican controversy.

The message received today announced that Mr. Patrick died on Sunday, as a result of injuries received on June 2. News of his death was not conveyed to the war department by Rear Admiral Badger until late yesterday.

On behalf of the naval department, Mr. Blue conveyed the sincere sympathy of the officers and enlisted men to the young man's parents. He also informed them that the remains were being brought north on board the battleship Utah, which sails today for New York and requested the father to inform the bureau as to what disposition should be made of them. Mr. Patrick immediately wired to the naval bureau asking that the remains be shipped to his former home in Calumet and was informed that his request would be complied with.

A brother of the deceased, Michael Patrick, is now attending the Great Lakes Naval Training School at Chicago, and he will be granted a furlough, so that he may return to Calumet to attend the funeral.

The late Mr. Patrick was twenty-one years of age. He resided with his parents in the Trap Rock valley up to a few years ago when he took up his residence at Ahmeek, working for the Ahmeek Mining company as a drill boy for some time. Last November he left Ahmeek to enlist in the navy, having had a splendid record during the time he was in the service.

Military men in the copper country today expressed the desire to confer every possible military honor in the burial of Mr. Patrick, whose remains likely will reach the copper country about the last of the week. The wishes of the parents will be consulted today and it is probable that the funeral arrangements will be similar to those for the late Private Oscar F. Hendrickson, whose death occurred at Vera Cruz on June 3, and whose remains likely will arrive here tomorrow. The Hendrickson's remains were expected today, but failed to arrive.

It was suggested that a double military funeral be held for the two former copper country young men who have lost their lives in the Mexican service, but this probably will be impossible owing to the difference in time between the arrival of the two bodies.

4TH OF JULY COMMITTEES.

Reports Will Be Presented at Meeting in Council Chamber Tonight.

There will be a second meeting in the Red Jacket council chamber this evening of the committees in charge of solicitation for funds to be expended in the Fourth of July celebration in Red Jacket this year. Reports will be presented and definite plans for the numerous features which will be included in this year's celebration will be taken up.

Residents of Red Jacket are much pleased that Laurium will co-operate in making this year's celebration a success and feel that there is now no great obstacle to be overcome in making the celebration the most pleasing that has ever been attempted in this city. If contributions equal those in other years, it probably will be possible to secure some splendid special features for the Fourth.

OLD LAW BARS
THE TOY PISTOL

Enforcement Will Mean Greater Safety on the Fourth

The elimination of the toy pistol, which it is generally recognized would be an important step towards greater safety on the Fourth, is not a new thing in Michigan. Secretary of State Frederick C. Martindale in his monthly bulletin of vital statistics calls attention to the fact the sale and use of toy pistols has been prohibited in Michigan for over thirty years. Inasmuch as there are a large number of such toy pistols in use in Calumet and Laurium, it is plain that some of the merchants have been violating Act, No. 138, Public Acts of 1883 as amended in 1897, which reads as follows:

Section 1—No person shall sell, give or furnish to any child under the age of thirteen years, any cartridge of any form or material or any pistol, gun, or other mechanical contrivance, specially arranged or designated for the explosion of the same.

Section 2—Any person violating any of the provisions of the foregoing section, shall be deemed guilty of misdemeanor, and upon conviction thereof, shall be punished by a fine of not less than \$10 nor more than \$50, and costs of prosecution, or imprisonment in the county jail not less than ten days nor more than ninety days, or both such fine and imprisonment in the discretion of the court.

Section 3—It shall be unlawful for any person under the age of thirteen years, to have in possession or use any of the articles named in section one of this act.
